Effort to Save Alleged Murderer. CHICAGO, April 3 .- Attorney Bowles, acting for Lewis Toombs, who is on trial for the alleged murder of Carrie Larsen on the steamer Peerless in the Chicago river last winter, to-day asked Judge Ball to dismiss the case on the plea that the portion of the river where the alleged crime was committed is under the jurisdiction of the United States government and not of Cook county. The motion was overruled and an exception taken. Attorney Bowles said he would try to have the case transferred to the Federal Court and then ask for an acquittal on the grounds of previous

Alleged Forger and Bigamist.

CHARLESTON, S. C., April 3.-Robert E. Ford is under arrest at Stockton, Cal. He is wanted at Florence, S. C., on charges of forgery and bigamy. He was a tobacco grower. In 1897, it is alleged, he forged a bond for trial and disappeared. He married the daughter of Bryant Ham, a prominent citizen of Florence, who claims to have discovered that Ford had been married before.

BEAR DAY IN CEREALS

SELLING PRESSURE IS TOO HEAVY FOR WHEAT AND CORN.

Fractional Losses Are the Result-Oats Are Unchanged-Hog Products Show Sharp Declines.

CHICAGO, April 3.-It was another bear day on the Board of Trade to-day. Wheat had plenty of good bullish news, but the sentiment prevailed that yesterday's bulge was more than conditions warranted, and late bearish crop news sent prices downward until May wheat closed %c lower, corn %@%c down and oats unchanged. Provisions also had a setback and closed 100

Trade in wheat dragged much of the time, and only once showed any snap. Foreign markets were slightly up, but disappointed the bulls in their unresponsive character. The sun also came out to brighten the views of the bear traders. Much of the early crop news was bearish and showed its effect on opening prices. Opposed to these factors were the very good cash demand by millers, something like 300,000 bushels of No. 1 northern being sold, and reports of probably reduced stocks at Duluth and Minneapolis. There was a semiofficial report that the shortage in Oklahoma and Kansas would be 50,000,000 to 80,-000,000 bushels because of the crop dam-Thinking of Changing the Loan age. May started 1/4c to 1/4c lower, at 71%c to 71%c, and worked up to .72%c on the bull Before completing arrangements, don't ket. Offerings were liberal, outside marabout three-quarters of last year's procipal winter wheat States would raise as %c lower, at 71%c. Local receipts were forty cars, none of contract grade; Minneapolis and Duluth reported 184, a total of higher;

224. against 255 last week and 365 a year ago. Primary receipts were only 299,000 bushels, compared with 532,000 a year ago. Seaboard clearances in wheat and flour equaled 757,000 bushels. The seaboard reported eighty loads taken for export. There were now tactics in the corn pit o-day that set the crowd guessing again. Prices started out at small declines because of the indifference of the foreign cate of the indifference o bles. Suddenly the prominent bull crowd unchanged; fancy, 12@124c; medium, 13@134c; that has been active in July options be- small, 13@13%c. gan to sell of that delivery and bought 2,000,000 bushels of September. This pushed the late future up and the crowd began to tail in. The nearer deliveries suffered in consequence, and, unlike wheat, showed no tendency to recover. When the offerings of September proved in excess of the demand that delivery eased off again and wheat exerted a weakening effect. Weather was reported favorable for the crop. Aside from the one incident in September the corn market was slack, with a tendency

toward the selling side. May sold between 60%@60%c and 59%c and closed weak and 56% to lower, at 59%@59%c. Receipts were Oats showed independent strength for a time to-day on buying of May that led to the belief that a movement in the cash cereal was at hand. The market, however, was very dull, and aside from the May strength, which was dissipated by the late weakness in wheat and corn, there was no feature. May sold at 43%c and closed steady and unchanged at 42%c. Receipts were 101 cars. Seeding and starting of plant growth was reported progressing well. Provisions were very weak and the de-

line looked very much like continued manipulation at the hands of the packers. The hog market was weaker and the small decrease in lard stocks induced selling of that product. Pork, however, was the bone of contention, and packers and other longs took profits and threw stuff over so quickly that many shorts who had recently run to cover did not have a chance to put out again the property they had bought under pressure. May pork closed 274c lower, at \$16.45; lard 20c down, at \$9.60, and ribs 10c off, at \$8.871/2. Estimated receipts for to-morrow-Wheat, 5 cars; corn, 80; oats, 75; hogs, 20,000 head. The Bull Movement in Cotton. NEW YORK, April 3.-The broadening speculation in cotton is commencing to at-

tract the attention of the entire financial community. The bull movement is being conducted under the leadership of Mr. Theodore H. Price, who, when seen at his Am. Smelt. & Ref 1,300 office this evening, expressed himself as Am. S. & R. pref .. absolutely confident of very much higher prices for cotton in the immediate future. Mr. Price says that the movement of the past few days shows conclusively that the crop is almost entirely exhausted and that the stocks at New York and New Orleans, | Hocking Coal 11,300 together with the very small quantity left in planters' hands, includes practically the whole supply, which supply he believes to be one million bales short of the world's requirements at present prices. Mr. Price insists very confidently that this situation can only be compensated for by an immediate advance, and in his views he is reputed to have the confidence of a very large

and wealthy following. Lyman J. Gage Elected President. NEW YORK, April 3.-Lyman J. Gage, former secretary of the treasury, was today elected president of the United States

NEW YORK, April 3.-The granger and a few minutes of to-day's closing dealings in stocks, and were rushed up in a sensational manner, which precipitated an eager scramble among the bears to cover, thus accentuating the rise. Previous to that time the character of the market had been much the same as that prevailing for a long time. There was a rather notable demand for St. Paul, but not greater than consistent with the recent tactics of proties made no perceptible movement either was a fairly comprehensive upward movement in the Vanderbilt stocks, which seemed to be prompted by the persistent and Chicago, St. Paul, Minneapolis & ments were in stocks of minor railroad bination into competitors with the larger systems. Oats, developed among the small industrials which are little heard of in the stock market, in some cases by reason of the closement purposes. The demand for Hocking MILWAUKEE, April 3.-Barley firm; No. 2, up 6 points, the preferred rising 31/4. Cleve-Michigan 2% and Ann Arbor preferred The New York Dock stocks rose about 5 points each. American Telephone and Telegraph advanced 10% on the reported large increase in the instruments outstanding. There was a long list of gains running from a point or more, some of which were simply recoveries from the depression of yesterday. At the same time Amalgamated Copper, Colorado Fuel, United States stocks were rather acutely depressed by realizing sales. When St. Paul reached the latter stages of its advances it encountered blocks of offerings running up to all to 169%. The stock closed practically at the top with a gain of 4 points. Chicago Omaha 11 and the preferred 4. It was not until within fifteen minutes of the close that these movements produced any appreciable effect on the general market. At that time the Pacifics and Southwesterns last night. The market closed very active and generally strong, though the response had not been notable outside of the stocks

generally spurted up from 1 to 2 points over mentioned, and some of the specialties continued to drop. There was no change in the general conditions affecting the speculative The bond market was not very active, but

there was a well-distributed demand. Total sales at par value were \$3,620,000. United States bonds were all unchanged on the last call.

THE LIVE STOCK MARKETS

DESIRABLE FAT CATTLE CONTINUE TO SELL AT STEADY PRICES.

UNION STOCKYARDS, INDIANAPALIS, April 3 .- Cattle-Receipts, 750; shipments, 150. The marketing of cattle for four days shows a decrease of about 300 compared with the same time last week and an increase of 1,600 over the corresponding time a year ago. The receipts to-day were nearly as large as a week ago and 150 larger than a year ago. The quality of the arrivals did not differ materially from the average heretofore this week, but there is a continued scarcity of top export steers. The market opened with a steady demand for all strictly fat cattle in their class, and fully steady prices were realized for that kind, although salesmen believed they had a little more difficulty in consummating sales. There is a continued discrimination against all cattle that are not fully up to the requirements in quality and flesh, and there is a gradual spreading in prices. Occasional transactions to-day were believed for the account. Exchange on London, 25f to be about steady compared with yesterday, but for the most part salesmen claimed the less desirable cattle sold weaker if not NEW YORK .- Bar silver, 54c; Mexican lower than they have for several days. Combined receipts of hogs for four days exhibit an increase of about 1,000 over the same time last week and the corresponding time a year ago. The receipts to-day were 70.00 about the same as a week ago and a little smaller than a year ago. The quality was 1.00 just fairly satisfactory, and there was an absence of loads of strictly prime heav hogs. The market opened with apparent 1.00 few urgent orders in the hands of shipperand, packers recognizing this, the bidding was rather sluggish and generally lower Salesmen, however, were firm in their demand for steady prices for the hogs of 1.00 good weight and quality, and finally succeeded in transferring all that answered that description at yesterday's prices. Lighter grades were believed to be weaker, and occasional sales of the less destrable light mixed hogs were considered 5c lower. It was more or less difficult to effect sales all day, and the market closed quiet, with rather a weaker undertone. The range in prices was from \$6.25 to \$6.90, except a few fancy hogs that sold at a premium price. Quotations:

RECEIPTS OF HORSES.

Great Increase in the Business Here Since It Began in 1895. It is interesting to note the development in the auction business at this place, which is indicated by the receipts. When the horse auction business began, which was in 1895, a total of 3,966 was received the first three months of the year, and the first three months of this year 11,515 arrived. indicating a gain of over 190 per cent. For the month ending March 31 4,082 horses were received in this market, which is the largest number ever received in one month, the next largest being 4,070 in March, 1898 Compared with February this year, there was an increase of 700 last month, and compared with March, 1901, there is an increase of 1,800. For the first quarter this year 11,515 arrived, which is an increase of 1,618 over the corresponding period last year. Only about 9 per cent. of the horses received here the last three months have remained in this city and the balance have been scattered all over the United States and foreign countries, but a very large percentage of the supply was taken by dealers in States east and northeast of Ohio. There is an enormous demand here for chunks and they represent a very large percentage of the supplies, although some of the best harness horses developed are bought here for European markets

and for the best trade in the larger East-
